press  to activate LCD, and logger will enter sleep mode again if there is no further button actions, until logger is started for recording.

← Auto

Wait for recording begins at preset time automatically after configuration.

2> Start Recording

Press and hold  button for 3 seconds to activate device and start recording.

Meanwhile  (go) flashing on LCD reminds you to keep current button action.

← Start Delay (12.5 days)

LCD changes to time countdown if device was set to a start delay after successful activation.

 appears on downleft corner of LCD indicating recording begins.

Quick Guide

3> Stop Recording

Press and hold  button for 3 seconds to manually stop recording, meanwhile STOP (stop) flashing on LCD reminds you to keep current button action until STOP becomes static, recording stopped successfully.

4> Download Data

▼ Download PDF Report

Connect Tempod® data logger to USB port, logger begins to generate PDF report automatically, and it would take couple of seconds to complete. The PDF report will be available in logger created removable storage device "TempSenDisk". Please copy the PDF report and save it to your computer.

↑ Connecting to USB port

↑ Generating PDF Report

- Please **DO NOT** perform any "Save" or "Save as" actions within PDF reader software. Otherwise, content of PDF file will be reorganized by PDF reader and raw data embedded in PDF file becomes unrecognizable.
- Please **DO NOT** remove Tempod from USB port while it's still in process of generating PDF report.

▼ Download Device via TempSen Express

You could also download Tempod using TempSen Express software, connect device to computer, open TempSen Express software to start searching devices connected automatically, and then you could select the Tempod loggers discovered by TempSen Express to download data.

Computer is not able to discover device connected until PDF report generation completes.
- If error occurs after configuration, please try to re-configure data logger to eliminate error.

9> Warranty

TempSen warrants this TempSen-branded hardware product against defects in materials and workmanship under normal use for a period of ONE (1) YEAR from shipment date ("Warranty Period"). If a hardware defect arises and a valid claim within the Warranty Period, as its option and to the extent permitted by law, TempSen will either (1) repair the hardware defect at no charge, using new parts or parts equivalent to new in performance and reliability, (2) exchange the new product with a product is new or equivalent to new in performance and reliability and is at least functionally equivalent to the original product, or (3) refund the purchase price of this product. TempSen may request that you replace defective parts with new or refurbished user-installable parts that TempSen provides in fulfillment of its warranty obligation. A replacement product or parts, including a user-installable part that has been installed in accordance with instructions provided by TempSen, assumes the remaining warranty of the original product or ninety (90) days from the date of replacement or repair, whichever provides longer coverage for you. When a product or part is exchanged, any replacement item becomes your property and the replaced item becomes TempSen's property. Parts provided by TempSen in fulfillment it's warranty obligation must be used in products for which warranty service is claimed. When a refund is given, the product for which the refund is provided must be returned to TempSen and becomes TempSen's property.

EXCLUSIONS AND LIMITATIONS

This Limited Warranty applies only to the hardware product manufactured by or for TempSen that can be identified by the "TempSen" trademark, trade name, or logo affixed to it. The Limited Warranty does not apply to any non-TempSen hardware product or any software, even if packaged or sold with the TempSen hardware. Manufacturers, suppliers, publishers, other than TempSen, may provide their own warranties to the end user purchaser, but TempSen, in so far as permitted by law, provides their products "as is". Software distributed by TempSen with or without the TempSen brand name (including, but not limited to system software) is not covered under this Limited Warranty. Refer to the licensing agreement accompanying the software for details of your rights with respect to its use.

TempSen does not warrant that the operation of product will be uninterrupted or error-free. TempSen is not responsible for the damage arising from failure to follow instructions relating to the product's use.

This warranty does not apply: (a) to consumable parts, such as batteries, unless damage has occurred due to a defect in materials or workmanship; (b) to cosmetic damage, including but not limited to scratches, dents, and broken plastic on ports; (c) to damage caused with non-TempSen products; (d) to damage caused by accident, abuse, misuse, flood, fire, earthquake, or other external causes; (e) to damage caused by operating the product outside the permitted or intended uses described by TempSen; (f) to damage caused by service (including upgrades and expansions) performed by anyone who is not a representative of TempSen or TempSen Authorized Service Provider; (g) to a product or part that has been modified to alter functionality or capability without the written permission of TempSen; or (h) if any TempSen serial number has been removed or defaced.

IMPORTANT: DO NOT OPEN THE HARDWARE PRODUCT. OPENING THE HARDWARE PRODUCT MAY CAUSE DAMAGE THAT IS NOT COVERED BY THIS WARRANTY. ONLY TEMPSEN OR AN AUTHORIZED SERVICE PROVIDER SHOULD PERFORM SERVICE ON THIS HARDWARE PRODUCT.
